I-65 Central CORRIDOR

DOWNTOWN LOUISVILLE HOSPITALS

Access to Downtown Louisville Hospitals (LOUMED) Remains Open During the I-65 Closure and the Project.

ACCESSING DOWNTOWN HOSPITALS DURING THE CLOSURE (JUNE 1 - JULY 31, 2026)

Accessing Hospitals from I-65:

- From southbound I-65, use Jefferson Street (Exit 136C).
- Northbound I-65 detours drivers to westbound I-264 to eastbound I-64 to the Jefferson Street exit.

Local Streets

- Local streets can also be used to reach downtown hospitals.
- Hill, Burnett, Kentucky and Brook (near Kentucky) streets will be closed under I-65.

ACCESSING DOWNTOWN HOSPITALS AFTER THE CLOSURE (THROUGH LATE 2027)

Accessing Hospitals from I-65:

- From southbound I-65, use Jefferson Street (Exit 136C).
- From northbound I-65, use Broadway (Exit 136A).

Local Streets

- Local streets can also be used to reach downtown hospitals.
- Hill, Burnett, Kentucky and Brook (near Kentucky) streets will be closed under I-65 through March 2027.
- Local street closures will continue through late 2027 as six additional bridges are replaced or rehabilitated.
- Use adjacent cross streets to access hospitals. Broadway, Gray Street, and Chestnut Street will not be closed at the same time.
- Brook Street will be closed near UofL Health between Chestnut Street to Muhammad Ali Boulevard through late 2027.
- Muhammad Ali Boulevard will be closed to thru traffic between Floyd Street and Brook Street through late 2027.
- A portion of Muhammad Ali Boulevard between I-65 and Floyd Street will be temporarily converted to two-way traffic for local access to enter and exit the UofL Health parking garage.
- Pedestrian traffic will be maintained under the bridge at Muhammad Ali Boulevard, Brook Street and Chestnut/Brook Street. A pedestrian detour will be provided when access under I-65 is deemed unsafe during certain construction activities.
